CODER FOUNDRY

Project Deliverables

Week 1

Project

Personal Site

Requirements

- ☐ Approved Bootstrap template applied
- ☐ Working pages
    - ☐ Profile / Landing
    - ☐ About – this is about you, things an employer may find interesting that do not appear on your resume
    - ☐ Portfolio – placeholder page for your projects, this should include a link to your JavaScript exercises
        - ☐ Modal popup (hover) for all linked projects describing the tech used in each
    - ☐ JS Exercises – these should be complete, Bootstrapped in modals, and attractive to users
    - ☐ Resume – your personal resume, refine as you receive updates and recommendations from T.J.
    - ☐ Contact – this will ultimately allow visitors to send messages to your email through SendGrid (we will complete this functionality in Week 2)
    - ☐ Other – anything else pertinent to you as a person and your site as a marketing tool
- ☐ Consistent layout (Menus, navigation, footers same on every page)
- ☐ Professional and aesthetically pleasing
- ☐ All extraneous template data removed
